

Polywater® InstaGrout™

Sealant Barrier based on Polymer Matrix Technology (PMT)

- Creates a strong, resilient, lightweight seal
- Self levels and flows before expanding.
- Seals uneven ground
- Easy to mix and apply, *no water required*
- Tolerates environmental extremes
- Sturdy, cross-linked structure will not crumble or cave-in

Polywater® InstaGrout™ Sealant creates a barrier to protect utility structures. It keeps out moisture and stops insects, snakes and rodents from tunneling through earthen gaps into the enclosure. The strong, lightweight seal withstands freeze-thaw cycles and environmental extremes. It is compatible with cable jacket materials and will not corrode metal.

Polywater® InstaGrout™ Sealant is a two-part system packaged in pre-measured quantities for easy, on-site mixing. The repair compound flows and expands around complex conduit stub-ups. It adheres to metals, plastics, wood, and concrete. InstaGrout™ self-levels and covers uneven dirt and sand base material. The result is a continuous barrier created from a convenient liquid system.

Cat #	Description	Standard Package
PMT-1	This kit will cover <i>1 square foot</i> (approx.) at a three-inch depth. Contains: 1 Bottle Part A, 1 Bottle Part B, 1 Pair Gloves. Instruction Sheet included.	2/cs
PMT-3	This kit will cover <i>3 square feet</i> (approx.) at a three-inch depth. Contains: 2 Bottle Part A, 1 Bottle Part B, 1 Pair Gloves, 1 Mixing Pail, 1 Mixing Stick, 1 Instruction Sheet	1 ea
