# 5. Firefighting Measures

#### 5.1 Extinguishing media:

Water fog or fine spray, dry chemical carbon dioxide, or foam.

#### 5.2 Special hazards arising from the substance or mixture

Dense smoke is emitted when burned without sufficient oxygen.

# Hazardous decomposition and by-products:

CO<sub>2</sub>, CO, phenolics. May contain other combustion products of varying composition which may be toxic or irritating.

# 5.3 Advice for firefighters

Wear full protective clothing, including self-contained, positive pressure or pressure-demand breathing apparatus. Sealed container can build up pressure when exposed to high heat. Water fog may be used to cool fire exposed container to prevent pressure build-up and possible auto-ignition or rupture. Direct water stream may spread fire.

#### 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures:

Isolate area. Use appropriate safety equipment.

#### 6.2 Environmental precautions:

Avoid release to the environment. Prevent spill from entering drainage/sewer systems, waterways, basements or confined areas. Refer to Section 12 for more information.

#### 6.3 Methods materials for containment and cleaning up:

Absorb spill with sand or absorbents. Residual resin may be removed using steam or hot soapy water. Collect as much of the spilled material as possible using non-sparking tools and transfer to a container. Seal the

Product Name: BonDuit<sup>®</sup> Gel Resin (Part A) Type BT Revision Date: July 22, 2015

container. Residual material can be removed with solvent.

#### 6.4 Reference to other sections:

Refer to Sections 4, 5, 8, and 13 for more information.

# 7. Handling and Storage

#### 7.1 Precautions for safe handling

Avoid personal contact with the product. All containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations. Wash thoroughly after handling. Wash contaminated clothing before reuse. For industrial or professional use only.

# 7.2 Conditions for safe storage, including incompatibilities

Keep containers cool, dry, and away from sources of ignition. Keep containers and cartridges capped and sealed. Protect from freezing. All containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations.

# 7.3 Specific end uses

See technical data sheet on this product for further information.

# 8. Exposure Controls / Personal Protection

# 8.1 Control parameters

# **Exposure limits and recommendations:**

Contains no components with established Occupational Exposure Limit (OEL) values. A Derived No Effect Level (DNEL) of 12.25 mg/m<sup>3</sup> has been established for Acute Inhalation.

# 8.2 Exposure controls

# Respiratory protection:

Normal ventilation is adequate. If exposure exceeds recommended limits, respirator protection is recommended. Wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced. Use a respirator or gas mask with cartridges for organic vapors (NIOSH or CE approved) with particulate pre-filter, P100 or AP2.

#### **Protective gloves:**

The use of chemically resistant gloves is recommended to prevent skin contact. Suitable materials include nitrile (included in most kits), neoprene, ethyl vinyl alcohol (EVAL), PVC. Use a glove with a protection class of 1 or higher (breakthrough time greater than 10 minutes according to EN 374). NOTE: The selection of specific glove for the application should account for other chemicals in the environment, physical requirements and potential user reaction to the glove material.

# Eye protection:

Safety glasses recommended.

# Other protective equipment:

Use protective cream if skin contact is likely. Remove and wash contaminated clothing before reuse. Discard contaminated shoes.

#### 4. First Aid Measures

# 4.1 Description of first aid measures

Eye Contact: If eye irritation from exposure to vapors develops, move to fresh air. Flush eyes

with clean water. If irritation persists, seek medical attention. For direct eye contact, flush with large quantity of water for 15 minutes. Seek medical attention.

**Skin Contact:** Remove contaminated clothing; flush skin thoroughly with water. If irritation

occurs, seek medical attention.

Inhalation (Breathing): If irritation of nose or throat develops, move to fresh air. If irritation persists, seek

medical attention. If breathing is difficult, provide oxygen. If not breathing, give

artificial respiration. Seek immediate medical attention.

Ingestion (Swallowing): Do not induce vomiting or give anything by mouth unless directed to do so by

medical personnel. Get medical attention if symptoms appear.

# 4.2 Most important symptoms and effects, both acute and delayed

Refer to Section 11 for more information.

# 4.3 Indication of immediate medical attention and special treatment needed.

No information available.

# 5. Firefighting Measures

## 5.1 Extinguishing media:

Carbon dioxide, water fog, dry chemical or foam.

# 5.2 Special hazards arising from the substance or mixture

# Hazardous decomposition and by-products:

Burning generates carbon monoxide, carbon dioxide.

# 5.3 Advice for firefighters

Wear appropriate, protective clothing, including self-contained, positive pressure or pressure-demand breathing apparatus. Sealed container can build up pressure when exposed to high heat. Use water spray to cool fire exposed containers.

# 6. Accidental Release Measures

# 6.1 Personal precautions, protective equipment and emergency procedures:

Keep away from heat/sparks/open flames/hot surfaces. No smoking. For a spill in a confined space, provide mechanical ventilation to disperse or exhaust vapors. For emergency responders: use respiratory protection: half-face or full-face respirator with filter(s) for organic vapor for spills in a confined space. Chemical goggles are recommended if splashes or contact with eyes is possible. For small spills: normal antistatic work clothes are usually adequate.

# 6.2 Environmental precautions:

Avoid release to the environment.

# 6.3 Methods materials for containment and cleaning up:

Collect towel and absorb any excess material with sand or absorbents.

#### 6.4 Reference to other sections:

Refer to Sections 4, 5, 8, and 13 for more information.

# 7. Handling and Storage

# 7.1 Precautions for safe handling

Keep away from heat/sparks/open flames/hot surfaces. No smoking. Avoid breathing vapors or spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Wash contaminated clothing before reuse. Use only outdoors or in a well-ventilated area. For industrial or professional use only.

# 7.2 Conditions for safe storage, including incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store away from acids and oxidizing agents.

# 7.3 Specific end uses

See technical data sheet on this product for further information.

#### 8. Exposure Controls / Personal Protection

#### 8.1 Control parameters

# **Exposure limits and recommendations:**

## 8.2 Exposure controls

## **Respiratory protection:**

Normal ventilation is adequate. If exposure exceeds recommended limits, respirator protection is recommended. Use a respirator or gas mask with cartridges for organic vapors (NIOSH-approved) or use supplied air equipment.

# **Protective gloves:**

For repeated or prolonged skin contact, the use of impermeable gloves is recommended to prevent drying and possible irritation.

Suggested Material: Nitrile Rubber

For short term contact (<15 minutes), splashes use 0.2 mm. For full contact use

Suggested Thickness: 0.4 mm

Exact break-through time has not been determined. Guidance is based on similar chemistry/material. Maximum wearing time should be determined based on 50 % of the penetration time determined by EN

374 part III.

# Eye protection:

Safety glasses recommended.

# Other protective equipment:

It is suggested that a source of clean water be available in work area for flushing eyes and skin. Impervious clothing should be worn as needed.
